For each of the tests skills children can record their performance out of a maximum score of 6, and depending upon their aggregate score for all five skills out of 30 will be awarded a bronze, silver or gold certificate.

Bronze 7-14/30, Silver 15-20/30 and Gold 21-30/30. The test skills are easily identifiable within the pack. All the games and activities we've created are a new spin on cricketing skills, and we're sure children will enjoy running around and challenging themselves.

Note: Years 1-4 are participation based and there are no accredited points for Year 1-4 age group children, however additional challenges have been added into their skills.
